

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## PREFACE.

---

Most French Grammars at present in use in the schools of England are—with the exception of Eugène's Comparative French Grammar—books of Exercises which do not afford the pupil any systematic knowledge of the grammatical rules of the language.

This book, which can be used with any French course, aims at giving a clear outline of the Accidence and Syntax of the French language, and contains, in a small compass, all that it is necessary to know to acquire the theoretical knowledge which must always precede the practical one.

That this work may prove useful is the most earnest wish of the author.

# INTRODUCTION.

## FRENCH ALPHABET.

1. — The French alphabet is composed of twenty five letters.

A, B, C, D, E, F, G, H, I,  
ah bay say day a eff \* ash e  
J, K, L, M, N, O, P, Q, R,  
\* kah ell em en o pay \* air  
S, T, U, V, X, Y, Z.  
ess tay \* vay eeks eegrek zed.

\* It is impossible to give the true pronunciation of these letters. **G** is pronounced somewhat like *zhay* and **J**, like *zhee*. **Q** and **U** have no equivalent in English. The French **U** is like the German *ü*.

## ACCENTS.

2. — Three accents are used in French viz: the **grave**, the **acute** and the **circumflex**.
3. — The **acute** accent (') is placed over e and generally gives to that letter a close sound.
4. — The **grave** accent, (") is placed over the vowels a, e, u. When placed over a or u it does not modify the sound of these letters, and when placed over e it gives to that letter an open sound.
5. — The **circumflex** accent (^) is placed over a, e, i, o, u and gives to those letters a long sound.
6. — The **cedilla** (,) is a little sign placed under the c; it gives to that letter the sound of s.
7. — The **diaeresis** (..) is placed over a vowel and shows that it must not be joined, in the pronunciation, with the preceding vowel.

8. — The **hyphen** (-) joins two words together and shows that they must be pronounced as if they were one.
9. — The **apostrophe** (') is put in the place of a vowel, which has been cut off for the sake of euphony.

---

### GENDERS AND NUMBERS.

10. — There are in French two genders viz: the **masculine**, and the **feminine**. Consequently inanimate objects are either masculine or feminine.

## THE SUBSTANTIVE.

## FORMATION OF THE PLURAL.

40. — Adjectives ending in **érieur** follow the general rule.

### PLURAL OF ADJECTIVES.

43. — Adjectives ending in **eau** take an **x** in the plural masculine.

44. — Adjectives ending in **al** change **al** into **aux** for the plural masculine.

put in the plural masculine; if the nouns are, of the feminine gender, the adjective is then put in the plural feminine.

---

### DEGREES OF COMPARISON.

47. — The comparative of equality is formed by placing *aussi* before the adjective, and *que* after it. Before a noun the comparative of equality is formed by putting *autant de* *as much or as many*, before the noun and *que de as*, after it.
48. — *Quite as* or *just as* are translated into French, by *tout aussi* or *tout autant — que*.

## OBSERVATIONS ON THE FOUR CONJUGATIONS

### FIRST CONJUGATION.

183. — Verbs ending in the infinitive in *écer*, *eser*, *éder*, *eter*, *éter*, *ever*, *eler*, *éler*, *érer*, *ener* take a grave accent upon the *e* which precedes the consonants *c*, *s*, *d*, *t*, *v*, *l*, *r*, *n*, when these consonants are followed by an *e* mute.  
 184. — For Verbs in *eter*, *eler* it is customary to double the consonants *t* or *l* instead of putting an accent over the preceding *e*.  
 185. — Verbs of which the present participle ends in *iant*, or *yant* take an other (*i*) in the first and second person plural of the imperfect indicative and present subjunctive.  
 186. — When verbs end in the present participle in *yant*, *y* is changed into *e* when it is followed by an *e* mute.

187. — Verbs ending in the infinitive in *ger* take an *e* after the *g* before the vowels, *a*, *o*.

188. — Verbs ending in *cer* change *c* into *ç* before *a* and *o*.

189. — Verbs ending in *éer* in the infinitive preserve the two *é* throughout the conjugation and take another *e* in the past participle feminine.

## SECOND CONJUGATIONS.

190. — The verb *bénir*, to bless, has two past participles masculine, and two past participles feminine as.

**Bénit** (m.)      **Bénite** (f.)

The first two are used in speaking of things consecrated by a religious ceremony and the last two in any other sense.

191. — The verb *fleurir* to blossom or to flourish makes *florissant* in the present participle, and *florissait* in the imperfect indicative when it means flourishing or flourished and *fleurissant*, *fleurissait* when it signifies to blossom.

192. — The verb *hair*, to hate, drops the two dots on the (i) in the first three persons of the present indicative and in the second person singular of the indicative.

### THIRD AND FOURTH CONJUGATIONS.

193. — When c is soft in the present infinitive it must remain so throughout the conjugation and therefore it is changed into ç before a and u.

194. — Verbs ending in indre or soudre change ds and d into s and t when ds and d are *final letters*.

## REFLECTED VERBS.

195. — Reflected or pronominal verbs as they are sometimes called, are conjugated with two pronouns in all their tenses, except the imperative. Ex.

Je me flatte	<i>I flatter myself</i>
Tu te flattes	<i>Thou flatterest thyself</i>
Il se flatte	<i>He flatters himself</i>
Nous nous flattons	<i>We flatter ourselves</i>
Vous vous flattez	<i>You flatter yourselves</i>
Ils se flattent.	<i>They flatter themselves.</i>

196. — The past participle of a reflected verb must agree in gender and number with the objective pronoun if it be direct. — Ex.

Elle s'est blessée	<i>She has wounded herself.</i>
Nous nous sommes perdus.	<i>We have lost ourselves.</i>

## PASSIVE VERBS.

197. — A verb is passive when conjugated throughout with the auxiliary verb *être* and the past participle.

Je suis aimé.	<i>I am loved.</i>
Tu es aimé.	<i>Thou art loved.</i>

198. — The past participle of passive verbs agrees in gender and number with the noun or pronoun to which it refers.

199. — Passive verbs take the preposition *par*, [*by*], when they denote an action in which the body or mind or both are concerned; and they take *de* — [*from*] when the mind only is concerned. Ex.

Il a été mordu par | *He has been bitten by a  
un chien. dog.*

Il est aimé de tout | *He is loved by every body.  
le monde.*

### NEUTER VERBS.

200. — These verbs are conjugated like active verbs and they generally take the auxiliary *avoir* in their compound tenses.

201. — Some neuter verbs like, *Aller, to go; arriver, to arrive; entrer, to enter,* are conjugated with *être*.

202. — Some neuter verbs are conjugated sometimes with *avoir*, sometimes with *être*.

If they express an action they are conjugated with *avoir*, and if they express the result of an action they take *être*.

### UNIPERSONAL VERBS.

203. — These verbs are only used in the third person singular and according to the termination of their infinitive they follow one or the other of the four regular conjugations.

204. — Here follows the conjugation of the verb, **Falloir** — to be necessary.

No present participle. Part. Past *fallu*.

Pres. Ind. — Il faut | *it is necessary or it must.*

Imperfect — Il fallait | *it was necessary.*

Perf. Def. — Il fallut | *it was necessary.*

Perf. Ind. — Il a fallu | *it has been necessary.*

Perf. Ant. — Il eut | *it had been necessary.*  
fallu.

Pluperf. Subj. — Qu'il eut fallu.	<i>that it might have been ne- cessary.</i>

205. — The present and future of falloir require the following verb in the present Subjunctive. The other tenses govern the Imperfect Subjunctive.

206. — Expressions implying necessity, obligation or want are generally rendered by falloir. In that case the objective pronoun is placed between il, and the verb falloir. e. g.

Il vous faut un livre.	<i>You want a book.</i>
Il me fallait de l'argent.	<i>I wanted some money.</i>

207. — To be better is translated by il vaut mieux, from valoir mieux.

## FORMATION OF TENSES.

208. — The tenses of a verb are divided into primitive and derivative tenses.

209. — The primitive tenses serve to form the other tenses. They are:

Infinitive present.

Present participle.

Past participle.

Present Indicative.

Past definite.

210. — All the derivative tenses are formed from these 5 primitive ones.

211. — The infinitive present forms. { 1<sup>o</sup> The future simple, by changing r, r, oir or re into rai, ras, ra, rons, rez, ront.  
2<sup>o</sup> The conditional présent by changing r, r, oir or re into rais, rais, rait, rions, riez, raient.

212. — The Present Participle forms three tenses. { 1<sup>o</sup> The plural of the Indicative present by changing ant into ons, ez, ont. The verbs of the third conjugation whose present participle is in evant make oivent in the 3<sup>rd</sup> person plural of the Ind. Pres.  
2<sup>o</sup> The Imperfect Indicative by changing ant into ais, aís, ait, ions, iez, aient.

3<sup>o</sup> The Present Subjunctive by changing ant into e, es, e, ions, iez, ent. The verbs of the 3<sup>rd</sup> conjugation whose present participle is in evant have the present subjunctive in oive.

213. — From the Past | all the compound tenses by  
 participle are | means of the auxiliaries *être*  
 formed. | and *avoir*.

214. — The In-  
 dicative pre-  
 sent forms.

The Imperative by dropping the pro-  
 nouns of the Indicative present.  
 In verbs of the first conjugation,  
 the imperative never takes an *s* in  
 the second person: e. g. *repose-toi*,  
*rest thyself*, and not *reposes-toi*.

215. — The Past  
 Définite  
 forms.

The Imperfect Subjunctive by changing  
*ai*, into *asse*, *asses*, *ât*, *assions*, *assiez*,  
*assent*, for the verbs of the first conju-  
 gation and by changing the final *s* into  
*-sse*, *-sses*, *-t*, *-ssions*, *-ssiez*, *-ssent*,  
 for the verbs of the three other con-  
 jugations.

216. — There are verbs which do not always form their tenses according to the above rules and on that account they are called **irregular verbs**.

We will now give a table of them together with a certain number of verbs which are called **defective**, because some of their tenses are wanting.

The adjective **tout** is an exception, and is put in the masculine when it precedes the word **gens**, except when between **tout** and **gens** there is an adjective which has a different termination for the masculine and the feminine, then **tout** and the adjective must both be put in the feminine.

#### USE OF THE SUBJUNCTIVE.

235. — The subjunctive must generally be used after verbs implying, **doubt**, **uncertainty**, **desire**, **command**, **necessity**, **utility**, **permission**, **consent** **fear** or **wish**. e. g.

Je ne pense pas qu'il vienne. | *I do not think he will come.*

Je désire qu'il ne vienne pas. | *I wish he would not come.*

Il faut que tu y ailles. | *You must go there.*

236. — There are conjunctions which always govern the Subjunctive and some that sometimes govern the Subjunctive, sometimes the Indicative.

237. — The following conjunctions always govern the Subjunctive.

afin que — *in order that,*  
 à moins que — *unless,*  
 avant que — *before,*  
 en cas que — *in case that,*  
 bien que — *although,*  
 de crainte que — *for fear that,*  
 de peur que, — *lest,*  
 jusqu'à ce que — *until,*  
 supposé que — *suppose that,*  
 pour que — *that,*  
 pourvu que — *provided that,*  
 quoique — *although,*  
 sans que — *without,*  
 soit que — *either.*

238. — The following conjunctions sometimes govern the Subjunctive sometimes the Indicative.

De sorte que — *so that,*  
 De façon que — *in such a way that,*  
 De manière que — *in such a way that.*

They require the subjunctive if they accompany a verb which implies doubt or incertitude, and the Indicative if the verb affirms or implies certitude.

### THE PAST PARTICIPLE.

239. — There are five kinds of verbs.

- 1<sup>o</sup> transitive or active verbs.
- 2<sup>o</sup> intransitive or neuter verbs.
- 3<sup>o</sup> passive verbs.

4<sup>o</sup> reflected verbs.5<sup>o</sup> Unipersonal verbs.

240. — The past participle of an active verb agrees in gender and number with the object, when that object is placed before the verb. e. g.

Voici les lettres | *Here are the letters I have  
que j'ai recues.* | *received.*

It remains invariable when the object is after the verb.

Nous avons reçu | *We received several letters  
plusieurs lettres* | *this morning.*  
ce matin.

241. — The past participle of a Passive verb agrees with its subject in gender and number. e. g.

Nous avons été | *We have been struck,  
frappés.*

242. — The past participle of a neuter verb agrees in gender and number with its subject when the verb cannot be conjugated with avoir. e. g.

Elles sont arrivées. *They have arrived.*

243. — The past participle of a reflected verb also agrees in gender and number with its subject. e. g.

Nous nous en sommes | *We abstained from it.  
mes abstenus.*

244. — A participle without any auxiliary is a true adjective and follows the same rule as the adjective.

### PAST PARTICIPLE FOLLOWED BY ANOTHER VERB.

245. — When a past participle is followed by a verb if one of the verbs is active the other neuter, the direct object belongs to the active verb. (Same rule as § 238.)

246. — If the participle and the verb following it are both **active**, you must find whether the object belong to the verb, or the participle. e. g.

La lettre que j'ai vu | *The letter which I have seen  
écrire par votre | your brother write.  
frère.*

Have I seen the letter write? No I have seen your brother write the letter. Then the object letter belongs to the verb *écrire*, and not to the participle. No agreement.

Les dames que j'ai | *The ladies I have heard  
entendues chanter. | sing.*

Have I heard the ladies sing? Yes the sense is I have heard the ladies who were singing. Then the object Ladies belong to the participle *entendues*. Agreement.
